## THROWN INTO PRISON.

English Traders In Trouble With the Ecuadorian Authorities.

### OUTSIDERS HAVEN'T MUCH SHOW.

Cruiser Philadelphia at Guayaquil Investigating Charges Made by Americans—Consul De Leon's Action Complimented.

Guayaquil, Ecuador, March 17.—News was received here by telegraph that a man named Kennedy had been locked up in the jail at Alausi, the same place where Michael Bolan of Springfield, O., was formerly imprisoned. Kennedy is not an employee of the Guayaquil and Quito railroad, but an Englishman trading legally in Alausi. He appears to be well connected. It is believed here that as a result of Kennedy's imprisonment the British government will have to consider the matter of affording protection to British subjects in Ecuador.

Certain American citizens here have signed and forwarded a statement to secretary of state at Washington in which M. De Leon, the American consul at Guayaquil, is complimented upon his stand in the matter of the recent alleged impositions upon American contractors in Ecuador by the present Ecuadorian officials. Michael Bolan was one of the Americans whose imprisonment was alleged to have been illegal and an outrage.

The cruiser Philadelphia came here to make an investigation of charges that Americans had been ill treated in Ecuador.

### Situation at Colon.

Colon, Colombia, March 17.—All approaches to Colon are now guarded by small detachments of troops. The government is throwing up embankments at certain advantageous points in the center of the town, and from 200 to 300 troops are kept moving up and down the railroad line. These are necessary precautions to avoid insurgent surprise and attack similar to the one of last November. Beef, provisions, vegetables, etc., are becoming scarce in Panama, as small boats are no longer able to communicate with the neighboring coast towns. Panama is receiving its supply of beef from Cartagena by way of Colon.

### Big Contracts Awarded.

Pittsburg, March 17.—The American Bridge company has been awarded the contract for structural steel work of all the viaducts that are to go in between the Monongahela and Ohio rivers for the extension of the Wabash railroad into this city. About 15,000 tons of steel will be used, costing the railroad company \$1,500,000. All the materials for this work will be made in Pittsburg district mills. Work on this contract, as well as the \$1,750,000 bridge contracts already given the bridge company, must be completed within a year.

### Two Whites Wounded.

Birmingham, Ala., March 17.—Hamp Bryant and Charles Sentell, two white men, were seriously wounded during a fight with Peter Durrett, a negro. The men became involved in a quarrel and Durrett attempted to use a pistol, but Sentell snatched the weapon from his hand and fired, shooting Bryant instead of the negro. Durrett then secured a shotgun and wounded Sentell in the legs. All the men were arrested.

### Flood Warnings.

Atlanta, Ga., March 17.—Heavy rains in northern and middle Georgia caused the Atlanta weather bureau to send flood warnings to Eufaula, Ala., and West Point and Columbus, Ga., predicting a rapid rise in the Chattahoochee. Northern Alabama was deluged, as were portions of south Georgia and northern Florida, and streams in those sections of the south are out of their banks.

### Suez Canal Blocked.

Suez, March 17.—The canal is at present blocked by the British petroleum steamers Norite, from Marcellus Feb. 24, and Bulysses, from Constantinople Feb. 24, for Port Said. The former is on fire and the latter is ashore and abandoned. The steamers mentioned belong to the Shell Transport and Trading company, limited, of London.

Manilla, March 17.—Givera, the insurgent leader, has issued a proclamation in the island of Samar declaring he has succeeded General Lukban, who was captured by the Americans, and that consequently all orders now standing in the name of Lukban are void. Givera also says he has been compelled unwillingly to issue this proclamation.

### CRIMINAL OFFENSE

#### For Attorneys to Take Fees For Pushing Private Pension Bills.

Washington, March 17.—Senators and members of congress are very much interested in the fact that the pension appropriation bill soon will become a law, because they hope to obtain from it some relief from the pressure on them to secure private pension legislation. The bill contains a provision making it "a criminal offense for attorneys, claim agents or other persons to receive compensation for service rendered in connection with the passage through congress of private pension bills." They say there are now many times as many bills before congress as possibly can receive attention during the congress, and the number is increasing daily. They recognize that many of the bills represent just claims, but they also feel that claim attorneys have been more active than they were called upon to be. It is also declared that claimants have been imposed on in many cases and persuaded to pay money for the introduction of bills which stand no show of becoming laws. The bill is now in the hands of the president.

### Coal Carrying Roads.

Pittsburg, March 17.—The annual meeting of the officials of the coal carrying roads of Ohio, Pennsylvania and West Virginia to fix the rate for the lake trade for the next year, is being held at the Hotel Schenley. The meeting is attended by about 25 of the representatives of the different roads, including the Columbus, Hocking Valley and Toledo, Toledo and Ohio Central, Columbus, Shawnee and Hocking, Wheeling and Lake Erie, Pittsburg and Lake Erie, Lake Shore and Michigan Southern, Erie, Pennsylvania company and Baltimore and Ohio. The railroad rate on coal to lake ports has not been changed much in the past five years, and it is not anticipated by the officials who are in attendance, that very much change will be made, if any. There may be an advance of five percent to take effect June 1.

### Says He Was Drugged.

Marcellus, Mich., March 17.—The demented youth who was found wandering around the streets here Wednesday night and who was at first supposed to be Leon Morse, the missing agricultural college student, recovered sufficiently to say that his name is Russell Casselman, and that his people live at Morrisburg, Ont. A ticket to that place from Chicago was found in his pocket. Young Casselman, who is on his way home from Dakota, says he was drugged in Chicago and was given treatment by the police there. He has no recollection of buying a ticket to Morrisburg.

### Bank Swindled.

Circleville, O., March 17.—A clever swindler worked an old game here and secured \$2,000 from the Salt Creek Valley bank at Laurelvile, O. A man giving his name as John Burke called on Attorney E. D. Stout, claiming he had purchased a farm of John M. Blain of Darby township for \$5,000. He needed \$2,000 to close the transaction. After a couple of days he furnished a deed and a mortgage, and Attorney Stout turned over the \$2,000. The following day Mr. Stout drove to Mr. Blain's residence and found that his signature were forgeries.

### Raised the Money.

Danville, Ky., March 17.—President W. C. Roberts of Central university, and the committee in charge, announced that they have been successful in raising a fund of \$25,000, in order to meet the terms by which a like sum was offered to the endowment fund of Central university. The donor of the original was Thomas H. Swope of Kansas City, Mo. His identity was kept a secret until Saturday morning when his name was announced by President Roberts.

### Couple Asphyxiated.

New York, March 17.—A man and a woman who registered as William Thompson and wife, at the Bridge hotel, were found in bed, the woman dead and the man dying of gas asphyxiation. The couple were poorly dressed. The man had the appearance of a laborer, and the woman was known in the neighborhood of the hotel as Bella Thornton. The police say that she tried to commit suicide some time ago by taking carbolic acid.

### Central College Remembered.

Danville, Ky., March 17.—Mrs. S. P. Lees of New York city, according to an announcement made by her administrators, has made Central university the beneficiary of a provision in her will bequeathing \$25,000 to the institution, and \$15,000 to the S. P. Lees Institute of Jackson, Ky. This makes an increase of \$75,000 in the endowment of Central university in three days.

### Miss Stone Surprised.

Salonica, March 17.—Miss Stone, the American missionary, expressed her surprise and gratitude at the universal manifestations of joy at the release of herself and Mme. Tsilka.

## THE WEEK IN CONGRESS

### Ship Subsidy and Amendments First in Order in the Senate.

### OTHER BILLS TO FOLLOW CLOSE.

#### House Will Dispose of River and Harbor Bill, Which May Consume Two or Three Days and Then Tackle an Election Contest.

Washington, March 17.—In accordance with the agreement reached a week ago, the senate began voting on the ship subsidy bill and amendments. There was no speechmaking after the voting began. The senate met at 11 o'clock, an hour earlier than usual, in order to give senators who wished to be heard an opportunity to speak on the bill before voting began. With the subsidy bill disposed of the bill introduced by Senator Hoar for the protection of the president of the United States from assassination will assume first place on the calendar, having been made the unfinished business. It is not expected, however, that there will be prolonged debate upon this bill, and there is great interest among senators as to which of several measures will be next preferred. The Republican steering committee probably will meet soon to consider this matter. Either the oleomargarine bill or the Chinese exclusion bill doubtless will be made the unfinished business to succeed the presidential protection measure, though the Nicaragua canal bill also is pressing for attention. The canal bill, however, according to present understanding, will be compelled to wait on both the other bills. There is a suggestion, which members of the steering committee are considering, to allow the Chinese bill and the oleomargarine bill to run alongside, one of them occupying the morning hour and the other taking the time after the expiration of that hour. Senator Proctor, who will have charge of the oleomargarine bill, and Senator Penrose, who will lead the fight for the Chinese bill, are equally confident of the outcome.

### In the House.

Washington, March 17.—The house during the present week will dispose of the river and harbor bill, will decide the contested election case of Moss vs. Shea from the Third Kentucky district, and will consider the bill for the retirement of officers of the revenue cutter service. Such is the program of the house leaders. The report in the contested election case is against Mr. Shea, and it is regarded as a foregone conclusion that he will be unseated. The revenue cutter service bill was defeated in the last congress, but its friends claim to have hope that it will meet a better fate now. It is believed that the river and harbor bill will not consume more than two days. A few members who are dissatisfied with appropriations for improvements in their districts will make an effort to amend it on the floor to meet their individual wishes, but the committee believe they will have strength enough to prevent any attempt to amend it, and that it will pass in the form in which it was reported from the committee.

### Site For Army Post.

Manilla, March 17.—General Chaffee has signed an executive contract for the purchase of a site for an army post at a point seven miles up the Pasig river. The site is a mile and a quarter wide by two miles and a half long. It is bounded on one side by the Pasig river and on the other by the Laguna de Bay. It is on high ground and overlooking Manilla. Building on this site will commence as soon as the purchase has been approved by congress.

### Cyclone in Alabama.

Birmingham, Ala., March 17.—A cyclone struck the mining town of Piper, Bluff county, wrecking 40 houses and damaging 35 others. Ed Turner, colored, was killed and John Allen, wife and three children were severely injured. The storm also did great damage at Curnee Junction and Belz Ellen. The mines in that section are flooded and can not be operated for several days.

### Central College Remembered.

Danville, Ky., March 17.—Mrs. S. P. Lees of New York city, according to an announcement made by her administrators, has made Central university the beneficiary of a provision in her will bequeathing \$25,000 to the institution, and \$15,000 to the S. P. Lees Institute of Jackson, Ky. This makes an increase of \$75,000 in the endowment of Central university in three days.

### Blaze in Nebraska Town.

Hastings, Neb., March 17.—Fire destroyed nearly half the town of Campbell. No estimate has yet been made of the total loss or insurance.

### TRADE INCREASING.

#### Commerce of the Philippines For a Period of Eight Months.

Washington, March 17.—The insular division of the war department has prepared for publication an extract from its regular monthly bulletin of the commerce of the Philippines, comparing the eight months ended Aug. 31, 1901, and 1900. It is shown that the total value of merchandise imported during the eight months ended Aug. 31, 1901, was \$19,618,596, against \$14,580,457 for the same period of 1900; and the total value of merchandise exported during the eight months ended Aug. 31, 1901, was \$16,935,405, against \$15,928,015 for the same period of 1900. The imports show an increase of 35 per cent during the period of 1901 as compared with the same period of 1900. In the exports there was a 6 per cent increase in favor of 1901.

The imports from the United States, exclusive of gold and silver, during the eight months of 1901, was \$2,470,050, being an increase of 84 per cent over the same period of the preceding year, while the exports figures show \$1,960,687, or a slight increase in favor of 1901.

### American Club in London.

London, March 17.—The report that Americans will shortly have in London a club equaling in exclusiveness and prominence to any of the leading clubs in the United States is confirmed. An influential Anglo-American committee was formed this week for the purpose of arranging all the details and getting the organization ready prior to the coronation of King Edward. The object is to afford Americans who are now barred by their nationality from several leading London clubs, a social headquarters in the British capital such as they have at home.

### Lyddite a Boomerang.

London, March 17.—The extraordinary effect of lyddite has been revealed by the statement that, during the recent experiments with the hull of the old battleship *Belle Isle*, shells containing that explosive refracted fragments upon the attacking vessels, which were 300 yards distant. Other fragments dropped close to a gunboat situated 2,000 yards abreast of the line of fire. The deduction drawn is that when lyddite is used there is danger for a friendly vessel at least 2,000 yards away. The *Outlook* compares lyddite with a boomerang.

### Funston's Future.

Washington, March 17.—Brigadier General Funston lunched with the president after having been in consultation with him for some time. Earlier in the day General Funston called at the war department and reported his arrival to Adjutant General Corbin. He also paid his respects to Lieutenant General Miles. Nothing has yet been arranged with regard to the future duties of General Funston, but it is probable that he will not be sent back to the Philippines unless he wishes to go there.

### Valuable Painting Held.

San Francisco, March 17.—D. E. Scocci, an art dealer of Manilla, has protested against a duty of \$8,000 assessed against a big war picture he brought over from Manilla on the last trip of the American ship *Maru*. The picture, which is an immense canvas, is held by the authorities until the duty is paid or the government waives the right to collect it on the ground that the Philippines are American possessions.

### Town Threatened.

Brunswick, Ga., March 17.—Washouts on the Southern railway, just above Everett City, Ga., have prevented the arrival of trains and mails over that system. It is reported here that the town of Everett City itself is threatened, as the waters of the lower Altamaha are rising rapidly. The Southern is bringing in trains in over the Plant system by way of Jesup and Waycross.

### Jewelry Stolen.

San Francisco, March 17.—Thieves entered the apartments of Julius Krantzschmitt, vice president of the Southern Pacific railway, in the Hotel Richelieu, and stole jewelry worth \$1,000. The intruders left no clew behind them, but it is believed the theft was committed by some employee of the hotel who had access to the railway man's apartments.

### Noted Dry Goods Merchant.

New York, March 17.—Hugh O'Neill, 59, founder of one of the largest retail dry goods businesses in New York, died at his residence in this city. Mr. O'Neill was a native of Belfast, Ireland.

### Blaze in Nebraska Town.

Hastings, Neb., March 17.—Fire destroyed nearly half the town of Campbell. No estimate has yet been made of the total loss or insurance.

## FURIOUS SNOW STORM

### Railroad Traffic Practically Suspended In the Northwest.

### HUGE DRIFTS PILED UP BY WIND

Many of the Deep Railroad Cuts Are Entirely Filled, and Temperature Is Below Zero Mark. Wires Not Working.

St. Paul, March 17.—North Dakota and the Canadian northwest have experienced the worst snowstorm in many years, and railroad traffic is practically paralyzed. The Northern Pacific and Great Northern have not moved a wheel for nearly 48 hours in the blizzard-stricken district, and have abandoned all efforts to do so until the fury of the storm abates. The high wind has piled the snow in mountain drifts and packed it in solid masses, many deep cuts being entirely filled. The temperature has been gradually falling and is now at or below the zero mark. Not a transcontinental train has arrived at St. Paul since Friday, and none is expected for several days. The Northern Pacific reports its westbound coast train, which left St. Paul Saturday morning, tied up at Fargo, the road beyond there being blocked. It started a coastbound train this morning and hopes to be able to get it through. The eastbound coast train due here Saturday morning is held up at Mandan, N. D. Every effort is being made by the road to keep its passengers who are snowbound warm and well fed, and for this reason trains are being held at stations where the accommodations are good rather than attempt to get them through with a possibility of being tied up between stations.

The Red River valley division of the Northern Pacific between Frankfort and Winnipeg is entirely abandoned. No trains have attempted to run since Friday night, and the exact conditions on this division are not known, as the telegraph wires have been carried down by the burden of snowfall. The situation on the Great Northern is equally bad. The line is tied up entirely between Grand Forks and Williston, N. D., a distance of about 35 miles, and all wires have been lost beyond Fargo. Thirty miles of wire are gone between Fargo and Casselton, N. D., and all communication with western Dakota and Montana points has been lost. So fierce has been the storm that it has been deemed inadvisable to attempt to reopen the road until it abates. Reports received at the general offices indicate that the gale has somewhat subsided, but that the snow still continues to fall.

The branch of the Great Northern running to Winnipeg is also tied up. No trains have been started northward since Friday night, and those that were caught on the road by the storm are held at the station near the border. Winnipeg is reported entirely cut off from railroad communication with the outside world. The Canadian Pacific transcontinental trains are snowbound somewhere west of there, and no prospect of relief is yet in sight.

The storm started on Friday, being preceded by a light rain fall and accompanied by high winds. The rain soon turned to sleet and then to snow, and this has fallen without cessation. The terrific gale drifted the snow so badly that the streets of the towns in the storm district were piled so deeply that it was next to impossible to wade through them. Business of all kinds has been at a standstill since Friday night, and not much can be done until the storm subsides. So far as known there has been no loss of life, but owing to the demolishing condition of the wires little news has been received from interior districts.

### Hungry Farmers.

Forsythe, Mo., March 17.—Hundreds of farmers in the Ozark hills of southern Missouri and northern Arkansas, whose crops failed during last summer's drought, are living in a desperately poor way on short rations. It is estimated that probably 10 per cent of the population in the district noted has felt the bitter pangs of hunger this winter. Offers of aid have been refused. The chief distress now comes from a lack of seed for the spring planting. This is being relieved by the distribution of seed supplied by the governor of Arkansas with money personally borrowed from the banks.

### Bill Hung Up.

Frankfort, Ky., March 17.—The lower branch of the general assembly by a vote of 50 to 41 refused to take the bill appropriating \$100,000 for Kentucky representation at the St. Louis fair from the chief clerk's desk and consider it. The bill will come up again before the close of the session.

### KICKING THEMSELVES,

Are the Republicans Who Voted For This Bill, Concerning Registration and Elections.

FRANKFORT, KY., March 14.—It has just been discovered to-night that the Farris Senate bill, which passed the House to-day and only awaits the Governor's signature to become a law, makes revolutionary changes in the voting system of Kentucky.

The bill apparently purports merely to require that voters in fifth-class cities shall register, as in cities of a higher class. From the title and cursory inspection of the bill one would never suspect any further purpose existed in the measure.

A close reading of the bill, however, shows that one clause applies to all cities from the first-class down, and that it applies in a manner which will overturn the ordinary political ward methods and offer tremendous advantages to the practical politician who is in the business of buying votes.

The clause in question provides that a registration certificate shall be issued to the voter, and that he shall not be permitted to vote except upon presentation of the certificate at the polls. This clause was never fully understood while the bill was being debated, and, in fact, the bill was given but little attention. Republicans who voted for it, under the impression that it simply extended the Australian ballot system, are wildly indignant to-night. The bill, they say, gives the ignorant voter the means to guarantee the sale of his vote. He has simply to sell or surrender his certificate and the fact is assured that he cannot vote.

Senator Farris, the author of the measure, laughed pleasantly to-night when he was informed of the perturbation which the news had occasioned among Republicans. He admitted that the effect of the bill was to require every voter in every city and small town of Kentucky to come to the polls armed with the certificate given him at the time of registration. Otherwise he would not be allowed to vote. The Republicans claim that the law will give the Democrats a tremendous advantage in their effort to control the colored vote.

### A Narrow Escape.

A serious accident was barely averted yesterday afternoon, when Mrs. Minnie Dickson, of Orangeburg, started on her return home after spending the day with her brother, Mr. Bernard Pollitt, of Lexington street.

She started from the alley in the rear towards the railroad, thence east along the south side thereof to Lexington street. Before reaching said street she saw a west-bound freight train approaching. As she made the turn to go up Lexington street the gates at the crossing were lowered and caught the buggy, separating it from the horse. The animal was badly frightened, but by the timely assistance of Mr. John Baird the occupant of the buggy was saved from any serious injury.

George Jackson, colored, employed by Wells & Coughlin, liverymen, drove to Germantown in a buggy Friday evening to convey a colored teacher to this city. When near the city limits, on the return trip, the horse became frightened by the action of two women who were evidently endeavoring to conceal their identity from the parties in the vehicle. The animal started to run, and in her efforts to escape from the buggy the woman knocked the lines from the driver's hands. Both occupants escaped without injury, notwithstanding it has been published that Jackson was kicked by the horse and had his leg and several ribs broken. He was at work Saturday evening. The same horse was being exercised Sunday evening by Willard Nichols, when it frightened at something on the Lexington pike and ran. It was under the control of the driver until the runaway reached Third street and Lexington, when the horse fell. Again the driver and horse escaped without injury. Messrs. Wells & Coughlin, who are careful, prudent liverymen, will see that the horse is not hired from their stable again, as they endeavor to keep only such animals as are safe and easily handled.

### WHAT THE COURT SAYS.

Syllabus of the Important Decision in the Case of McCabe's Administratrix Against M. and B. S. and C. and O. Railroad.

In reversing the above case taken up from this county, the Court of Appeals says:

First—A motion for the removal of a cause to the Federal Court must be overruled unless the petition for removal shows the existence of a controversy which is wholly between citizens of different States and which can be fully determined as between them, that being the jurisdictional fact upon which the right of removal depends.

Second—A removal cannot be had by a non-resident defendant where a resident defendant is properly sued jointly with him.

Third—As statutes are not presumed to be intended to have effect beyond the jurisdiction of the State, act of January 22, 1858, authorizing "railroad companies in this Commonwealth" to contract "for the leasing of the road of one company to another, provided the roads so leased shall be so connected as to form a continuous line," applies only to domestic corporations, as the statute provides how the meeting of stockholders to approve such contracts shall be called, and it cannot be presumed that such a provision was intended to regulate the proceedings of corporations in other States.

Fourth—A provision of the charter of a railroad company "that whenever any portion of said railroad shall be completed and in readiness for business, such portion thereof may be put in operation under authority of the Board of Directors on such terms and for the use thereof as the Board of Directors may prescribe," not exceeding certain maximum rates, with a proviso that "they may make special contracts for special services on such terms and conditions as the parties thereto may agree upon," did not authorize the corporation to lease its road, as such charters are to be strictly construed.

Fifth—A provision in the charter of a railroad corporation empowering the corporation to "make contracts with individuals, corporations and other railroad companies for the building, completion and operating of said road or any part thereof," empowered the corporation to lease its road, but not so as to relieve it from liability for the negligence of the lessee in the operation of a train whereby a person on the track was struck and killed.

A cold wave bulletin was sent out Sunday by the Weather Bureau, forecasting a drop of twenty degrees or more in the temperature. The fall was from 58° to 26°.

The Metropolitan quartet of the Kentucky Academy of Music, will give a series of concerts during the last week of March at Dover, Flemingsburg and Carlisle.

Mr. Ambrose Lindeman, who has been in charge of the Lang-Jon-Creasy grocery for some time, has resigned his position as manager and left Saturday for Cincinnati. Mr. A. W. Thompson succeeds him.

Mrs. Martha S. Withers, of Lexington, has donated \$5,000 to Kentucky University as a memorial fund to perpetuate the memory of her late husband, General William Temple Withers. The fund is to be used as an endowment for the establishment of a chair for the dean of women. It is stipulated that the scholarships which it also endows shall be known as the "William Temple Withers Scholarships."

Georgetown News-Democrat: "A gentleman was in the office of a prominent C. and O. official recently and a letter was handed him from the Presiding Judge of the Kentucky Court of Appeals asking for a pass for two lady friends, over the company's roads. Is there any more reason why a Judge should have free passes than any other citizen? Such a demand from a private citizen would be turned down instantaneously. In this case they were no doubt granted. Why? Every man on earth with an ounce of brain knows why."

The Covington correspondent of the Times-Star has the following in reference to a former Mayfield minister: "When Rev. U. V. W. Darlington and wife moved into their new home on Greenup street last week they were greatly surprised to find that the congregation had remembered them in such a substantial way. The Ladies' Aid Society of the Scott Street M. E. Church presented them with a handsome dining-room table, while one of the other societies furnished the culinary department. Individual presents were found throughout the house."

## FORTUNES IN OIL!

Kentucky just now is attracting prospectors from all over the land. The wells already sunk prove it a very rich oil producer. MONEY INVESTED NOW MAY DOUBLE OR QUADRUPLE IN LESS THAN A MONTH.

Our holdings consist of about 5,000 acres in Wayne County, near the great Sunnybrook field, about 6,000 acres in Lincoln County, and 600 acres in Licking Valley in Bath County, close up to Ragland. Our first two wells near Ragland are producers. We have started to drill in all three counties, and expect to strike oil in every well. We are still acquiring valuable lands in addition to those already secured, and lying in close proximity to the greatest developments in the State.

A limited amount of the treasury stock will be sold, at \$5 per share, par value of shares \$10 each. This stock will, we confidently believe, be selling for par in thirty days.

**Beauty is Health.**

Walnut Lake, Ark., June 2, 1900.

I thank you for the benefit I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began to feel better and the months, which came at the correct time, contained three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.

Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

**WINE OF CARDUI**

is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. Women suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb! Beauty flees quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.

# THE BEE HIVE

## DIFFERENT NOW FROM THE CIVIL WAR TIMES!

Two hundred thousand buyers go to New York each season. One hundred and ninety thousand don't know how to buy! One hundred and ninety thousand merchants would be better off if they stayed at home and wrote to some good house to send them what they need.

Some merchants wonder why their goods don't sell when they advertise that they were in New York to buy them. Some merchants don't know that the war is over. Some merchants think because they bought certain kinds of goods every year for FORTY YEARS they still have to buy them. THEY DON'T KNOW that they should have stopped buying that same article THIRTY-NINE years ago. GOODS BOUGHT RIGHT ARE HALF SOLD.

The secret of MERZ BROS.' success is in OUR NEW YORK CONNECTIONS. We have been asked very often how it is that we have an entirely different line from other merchants. We answer that the goods we buy are not shown in New York. Take for instance our trimming house. The buyer goes to Europe with a thousand customers on his books. He sees a handsome novelty; he buys all of it and sends it to all customers on his list. It's never shown in New York. And so it is down the list—Dress Goods, Silks, Laces, Embroideries, etc. 'Nuff said. Just remember what we show is fashion; what we don't is not.

### MATTINGS

A ship-load of Mattings was in a storm; some were wet. The load was sold at auction. We got fifty rolls that were never wet—beautiful Japanese Mattings. Price should be 45c. This lot 25c. per yard. "You'll have to hurry."

LINENS—A new line, the very thing for Boys' suits, Children's blouses. 15c. per yard.

Two pieces check linen, black and blue, suitable for skirts and Boys' pants, worth 30c. Special price 12½c.

TABLE LINEN, unbleached, from 29c. up. A special value at 50c. Would like for you to ask to see this number.

LUNCH CLOTHS—Hemstitched and drawn work. A beauty for \$1.19; better one at \$1.49.

### PROF. H. C. SMITH.

Death Claims a Veteran Teacher of This City—The End Came Last Night. Funeral Wednesday Afternoon.

Prof. H. C. Smith, whose serious illness was mentioned a few days ago, died last night at 11:30 o'clock at the family residence 220 East Fifth street, of dyspepsia. He had been in declining health for some time. His last sickness dated back eleven weeks.

Mr. Smith was a native of Mason County, and would have been seventy-one years old to-day. He had been a resident of Maysville fifty-nine years, and for forty-two years he was a faithful and successful teacher in the public schools of the city, having been retired a few years ago on account of his advanced age. He had long been a devoted member of the M. E. Church, Third street, and the funeral will take place Wednesday afternoon at 2 o'clock at the church, Rev. F. W. Harrop officiating. Interment in the Maysville Cemetery.

Mr. Smith is survived by his wife, who was Miss Belle Atherton, and he leaves two children, Mr. W. R. Smith of this city and Mrs. George Bowman of Newport.

### NEW SUPERINTENDENT.

Mr. Beecher Holliday Takes Charge of the Street Railway—Extra Car To Meet Trains Hereafter.

Mr. Lee B. Gray will hereafter devote his entire time to the management of the electric light and gas business, and has resigned his position as Superintendent of the street railway. He is succeeded in the latter position by Mr. Beecher Holliday, who was for many years connected with the road as motorman and conductor.

Beginning to-day, an extra car will hereafter be run so as to meet all trains. This extra will make at least one round trip each night after the regular cars stop running, leaving the West End after the arrival of the 10:46 train.

These additional accommodations will be appreciated by the patrons of the road. The regular cars will not be detained hereafter by waiting for trains, and the extra at night will give facilities for reaching the East End that have heretofore been had only on Saturday nights.

Mr. Garrett B. Wall, of Richmond, Va., has the bill allowing the Chesapeake and Ohio railroad to consolidate all its lines in Kentucky, and succeeded in having it passed almost by an unanimous vote, as it will make a Kentucky corporation of the consolidated lines.

The ferry skiff was stolen last Friday night from the landing on this side, and has not yet been recovered.

# Seed Pedigree!

You consider pedigree valuable in a horse, it is more so in seed. The basis of pedigree is that like produces like. Our seeds were planted from good seed and raised purposely for seed, which leaves no doubt as to kind, or variety or productiveness. This should make them more valuable to you than seeds bought from houses who don't raise an acre of anything, but who buy their seed wherever they can be picked up. Besides these reliable seeds cost no more. Plant good seed and insure a good crop.

### CINCINNATI TOBACCO MARKET.

Weekly Review of the Trade—Offerings Heaviest in Years—Prices Were Well Sustained.

| Week.            | 1901.       |
|------------------|-------------|
| New (hds)        | 1,810 1,391 |
| Old              | 816 321     |
| Total offerings  | 2,626 1,715 |
| Total rejections | 616 264     |
| Actual sales     | 1,980 1,451 |

The 1,810 hds. of new tobacco averaged \$7.27 per 100 lbs., as against \$6.80 for the 1,401 hds. last week and \$6.85 for the 1,391 hds. for the corresponding week in 1901.

The 816 hds. of old tobacco averaged \$8.47 per 100 lbs., as against \$8.07 for the 800 hds. last week and \$9.51 for the 324 hds. in the corresponding week in 1901.

Offerings during the past week in the hurley leaf market were the heaviest for over a year, aggregating 2,626 hds. of which 1,810 hds. were of the new crop and 816 hds. of the old. Under very adverse conditions the market held up remarkably well, poor light and gloomy weather interfering to a considerable extent with the sales. The market for new tobacco was irregular, especially on Wednesday and Thursday, due in a large measure to the fact that considerable of the offerings which had been prized in the recent extreme cold weather showed up damp and moist. This made buyers extremely cautious, rigid and close inspection being the rule, and the wet goods were, therefore, severely discriminated against.

Prices were well sustained, however, on all packings giving evidence of careful handling.

Good medium and the choice hogsheads of bright cutters exhibited lively competition, a number of hogsheads selling at prices ranging from \$15.00 to \$22.50, the latter being the record price for new in the local market.

The light offerings of old tobacco indicate that it will soon be out of the market, and much of the better grades still in the hands of shippers is

being absorbed at private sales. Medium good leaf from 9½c. to 11c., and good lugs were the favorites with the buyers, while there was also a fair demand for low grade smokers. Some shading in prices was evident on the better grades, especially on Thursday. Fine color sorts were in big demand, and brought outside figures throughout the week.

A hearty appetite does not always indicate a healthy condition. It is not the quantity of food which is eaten but the quantity which is assimilated, which determines the actual value of the food consumed. If the stomach and organs of digestion and nutrition cannot convert the food into nourishment, and into blood, then the food is an injury instead of a benefit. For all disorders of the stomach and its allied organs of digestion and nutrition, there is a certain remedy in Dr. Pierce's Golden Medical Discovery. It removes clogging obstructions. It strengthens the stomach, nourishes the nerves, enlivens the blood and builds up the body. It is a flesh-forming, muscle-making preparation, firm flesh instead of flabby fat. "Golden Medical Discovery" contains no alcohol, whisky or intoxicant of any kind, and is equally free from opium, cocaine and all narcotics.

J. M. Richart, T. H. Brown and Isaac Shouse, of Bath County; ex-Congressman Samuel J. Pugh, of Vanceburg, and several capitalists of Manchester have formed a new oil and gas company to be known as the Alum City Oil and Gas Company. They have land near the famous Ragland field in Bath, and will at once begin to bore for oil.
